Fourth quarter 2024 presentation

AKOBO MINERALS AB (publ) 27th March 2025

Euronext – AKOBO OTC – AKOBF www.akobominerals.com

Disclaimer

This document has been used during an oral presentation. Therefore, this document is incomplete without the oral explanations, comments and supporting instruments that were submitted during the referred presentation. To the extent permitted by law, no representation or warranty is given, express or implied, as to the accuracy of the information contained in this document.

Some of the statements made in this document contain forward-looking statements. To the extent permitted by law, no representation or warranty is given, and nothing in this document or any other information made available during the oral presentation should be relied upon as a promise or representation as to the future condition of Akobo Mining's business.

This presentation includes information from the Segele Mineral Resource Estimate released by Akobo Minerals AB on the 22nd of April 2022. Akobo Minerals AB confirms that it is not aware of any new information or data which materially affects the information contained in the press release regarding the Segele Mineral Resource (22/4/2022). All material assumptions and technical parameters underpinning the estimate are relevant and have not materially changed.

The information that relates to Mineral Resources is based on information compiled by Mr Michael Lowry who is a member of the Australasian Institute of Mining and Metallurgy and is a full-time employee of SRK Consulting (Australasia) Pty Ltd. Mr Lowry has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'.

Akobo Minerals – an Ethiopian gold producer

Operating in Ethiopia

- Exploration & mining licenses in Gambella region & Dima Woreda
- 15+ years of on-the-ground activity
- Strong local foothold built on ethics, transparency & communication
- · Listed on Euronext Growth, Oslo
- Segele mine in commercial production

Strategic advantages

- 182 km² exploration license with world-class deposit potential
- High-margin gold production expected from the Segele mine
- Segele Mineral Resource (SRK):
 - Indicated: 41,000 oz @ 40.6 g/t
 - Total Resource: 68,811 oz @ 22.7 g/t
 - Still open at depth with near-mine targets
- Modern processing plant & in-house drilling rig

Growth and cash flow potential

- 16 km² mining license with room for expansion
- Segele deposit positioned to deliver substantial cash flow
- Several near-mine and regional targets identified with strong gold potential
- Positioned to be a key player in Ethiopia's mining industry

Latest key events

First-ever revenue achievement

The company has recorded its first quarter with revenues in its 15-year history

Record gold price impact

• The unprecedented high gold price has significantly boosted Segele's cash flow potential

Sutton Global collaboration strengthening

• Progress on vertical shaft design, preparation, and site establishment is moving forward

Leadership transition

 Helge Rushfeldt will pursue new opportunities. Kobus Byleveldt, with 40 years of mining expertise, has joined from Sutton Global and is already actively contributing in Ethiopia

New General Manager appointment at Etno Mining

• Tamiru Hailu Zemedehun has succeeded Tesfaye Medhane, who has made significant contributions to the development of the Segele mine and the growth of Etno Mining

Production update

• Production in the first two months of the year was lower than anticipated. However, there is no need to reevaluate overall ambitions

Financial positioning

• Continued efforts are underway to support the development of the vertical shaft, with a focus on securing the necessary funding for this critical project, while also evaluating additional funding options to support expansion and long-term growth

Officially a Gold Producer

18,5 kg gold produced so far

Started cost covering

Recent Ethiopian economic development

Successful currency floatation

 Transition to a market-driven exchange rate system, enhancing forex market transparency and competitiveness

Reduction in inflation

• Easing inflationary pressures, stabilizing the macroeconomic environment, benefiting consumer purchasing power and business costs

IMF and World Bank agreements

• Secured financial support, bolstering economic reforms and boosting investor confidence

Launch of the Ethiopian securities exchange (ESX)

• Modernizing the financial sector, enabling future capital raising through equity and bond markets

Opening of the banking sector to international investors

 Foreign banks allowed up to 40% ownership in Ethiopian banks, enhancing competition and financial inclusion

Improved access to foreign currency

Gradual improvement in forex availability for businesses and imports

Issuance of investment banking licenses

• First-ever investment banking licenses granted, supporting capital market development

Sustained economic growth

Ethiopia achieved 7-8% GDP growth in 2024

Despite ongoing challenges, Ethiopia is making significant progress in economic reforms, creating a more attractive environment for investors

Ethiopia is making significant strides toward joining the World Trade
Organization

Potential collaboration with the Ethiopian Sovereign Fund

Ethiopian Investment Holdings

- The Ethiopian Sovereign Fund with significant AUM (USD 150bn)
- Manages a diverse portfolio of over 50 companies across various sectors

Expertise in commercial management

Proven success in optimizing state-owned enterprise operations

Key partner in Ethiopia's economic development

Major player in driving investments and development in key sectors

Mining as a strategic sector

Longstanding and ongoing discussions between Akobo Minerals and EIH on a potential collaboration

Key hurdles overcome

Regulatory and operational challenges have been addressed, enabling progress

Figure 1 to conclude first ever international investment

Sutton Global

Sutton Global Holdings Limted is a diversified, global group of companies that offers comprehensive management and business consulting, Mining and Process solutions, commodity trading, oil & gas advisory services and investments and project development services worldwide. Sutton has a proven track record and our team has assisted many companies with financing and management of projects from concept stage through to cash flow generative and fully functional companies.

Sutton Global is offering Akobo Minerals solid support on all areas of expertise needed to build a successful mine at Segele,

- Business support Manager
- Mine Manager
- Operations Manager
- Process Plant Manger in relation to CIL start up
- Team and supplier selection for vertical shaft project
- Technical expertise on vertical shaft project
- Mine planning expertise on vertical shaft development

Sutton Global is a trusted partner of Monetary Metals and Akobo Minerals

Gold sales and financial update

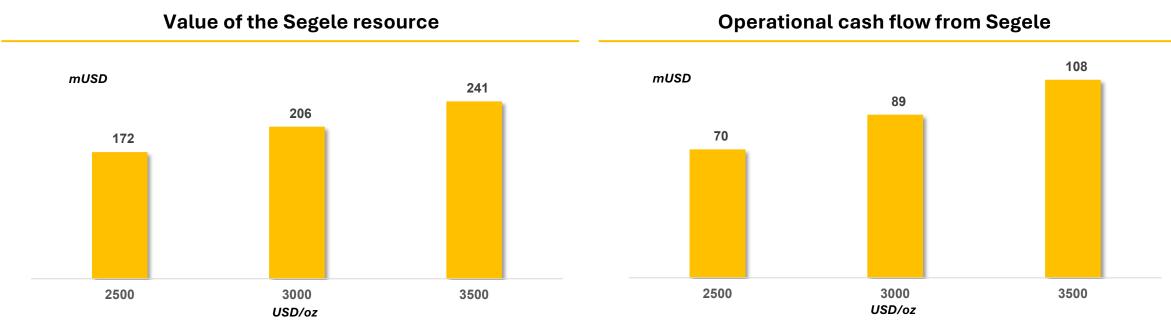

- Ongoing strategic discussions: Engaged in discussions with financial, industrial, and strategic partners to explore potential cooperation, including long-term capital restructuring
- o Monetary Metals support: Strong relationship and continued support from Monetary Metals in finding solutions to facilitate expansion
- o **Gold inventory build-up**: Establishing a small gold bank in tailings, to be processed with the CIL startup
- **Recovery rate optimization:** Latest recovery rates under review, Sutton specialists arriving on-site in early April to oversee the next smelt
- **Production outlook:** While still early days, we expect improvements in production as new areas in the mine are opened up

Gold price development with positive effect on the Segele mine

de development with positive enect on the begate mine

- Record high gold price above 3.000 USD/oz
- Segele operational cash flow estimated at 90mUSD
- Monetary Metals gold loan of 8.750 oz valued at 25mUSD, including interest and increase in nominal value due to gold price
- Ongoing dialogue with Monetary Metals to restructure terms better aligned with current operational status and risk level

ESG, Health and Safety

Environmental monitoring

- Regular wastewater sampling and testing at the Tailings Storage Facility (TSF)
- Continuous monitoring of TSF water levels for proactive management
- Noise and air quality assessments in progress, with mitigation strategies underway
- Annual Environmental Performance Report submitted to regulators

Health & Safety initiatives

- Onsite clinic providing healthcare services and hygiene improvements at the workers' camp
- Deployment of a trained safety officer to reinforce safety culture
- Regular documentation of safety incidents for timely intervention
- Strengthened emergency preparedness with enhanced first aid training and equipment

Committed to responsible mining

Akobo Minerals prioritizes environmental stewardship and worker safety

Exploration

Exploration focus shift: Activities were scaled back in Q4 2024 to prioritize Segele Mine ramp-up, while essential geological work continued

Drilling progress: Completed five diamond drill holes (401m) to assess Segele ore body continuity

Target generation: Identified and prioritized new drilling targets for future campaigns

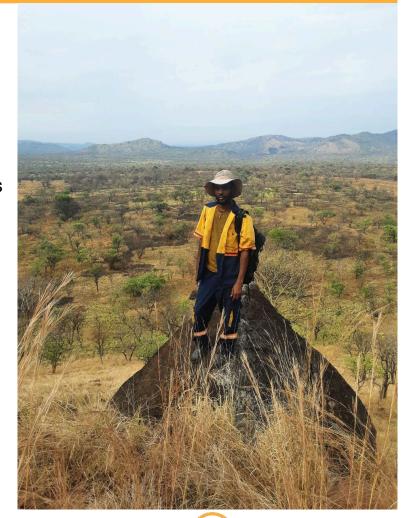

Core relogging: Re-examined 30 drill holes to refine geological, structural, and mineralization models

Data management: Updated geological datasets and maps for the Etno Mining exploration license

Geological mapping: Enhanced the geological understanding of the license area

Surface mapping and sampling: Continued fieldwork to assess additional mineral resources

Next Steps (Q1 2025): With the drill rig under maintenance, exploration will focus on surface mapping and sampling in preparation for the next drilling phase

Exploration and drilling in the Southern part of exploration area

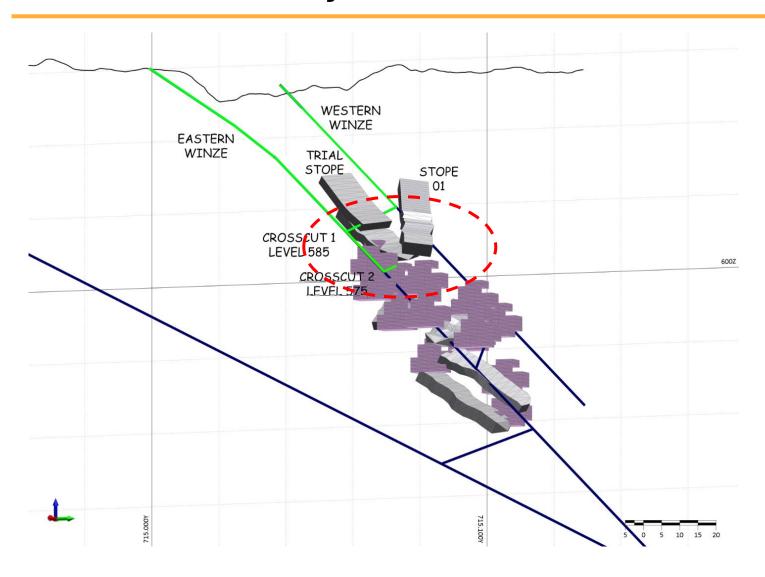

The Segele Mine

Mine Metrics and Layout

Key mine metrics

- Total Mineral Resource 69 kOz, 22,7 g/t
- Indicated resource 41 kOz, 40,6 g/t
- Conservative 81 % extraction factor
- 10 t/h plant capacity
- Peak production rate 4,000 oz/month

Excellent resource extension potential

- Open at depth
- New mineralization found 100 meters west
- Great potential from assay results in artisanal pits
- Low-cost drilling available

Mining operations

Mine development

- Sunk the Eastern Winze to level 575 and started new Crosscut 2 (CC2)
- Now opened several faces for ore extraction in Crosscut 1 (CC1)
- Steady ore production day by day
- Eastern winze length 86 m (used for extraction of ore from CC2)
- Western winze length 63.5 m (used for extraction of ore from CC1)
- Planning of vertical shaft (see next slide)

Challenges

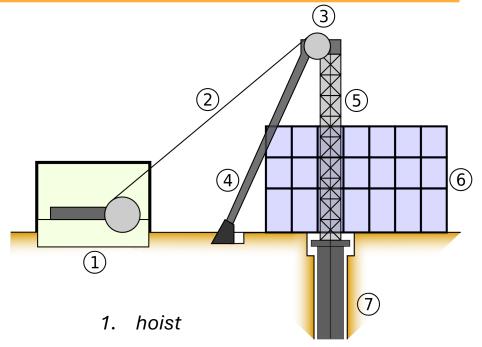

• Current mine infrastructure limits extraction of ore from the mine. A new sink shaft is being planned to rectify this.

New Vertical Shaft

- Will replace the incline shaft and save time and money
- Area to start vertical shaft: between the two winzes.
- Depth of vertical shaft: approximately 130 m
- How many levels it will be used for: 4 levels; -40 m down from surface,
 -70, -100 and -130.
- Capacity: 100 to 150 tons per day (compared to 10 to 20 tons per day from the winzes)
- Two carts in the skip, 1.5 tons per cart 3 tons per trip
- Uses: personnel cage and ore / waste rock haulage
- The vertical shaft can be used for haulage of ore during sinking when first level is reached (-40 m) after an estimated 120 days.
- Size: 2.5 by 2 meters
- Headgear: Standard design, will be manufactured in South Africa
- Headgear approximate cost is approximately 900.000 USD
- Personnel needs for shaft sinking: 2 experts from South Africa, 7 shaft sinkers from Zimbabwe

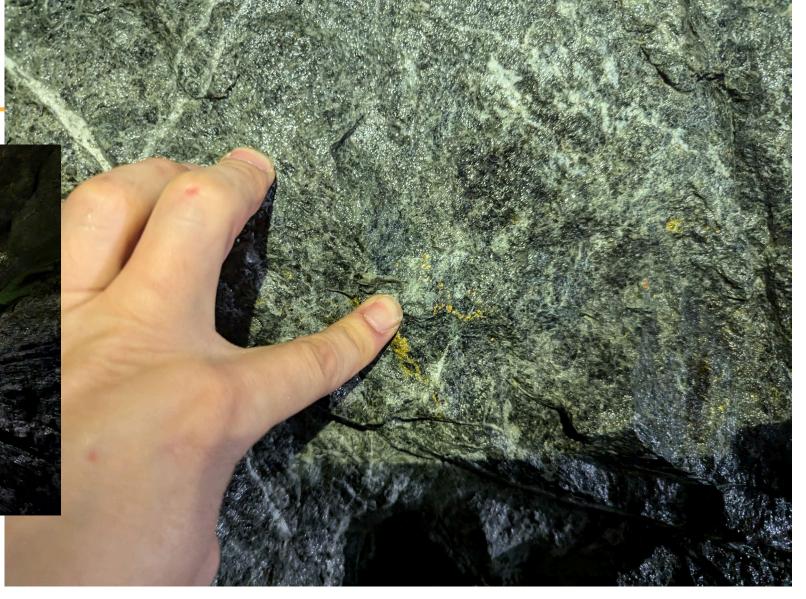

- 2. cable
- 3. wheel
- 4. sheer
- 5. head gear tower
- 6. hoistroom
- 7. mineshaft

In the Mine

Geologists discussing in the crosscut

Processing Plant

- Good production ramp up in 4th quarter with 2,8 kg of gold produced in October, 10 kg in November and 2,3 kg in December
- Processing plant has been running every day with minimal downtime

Plant operational and producing

Key Recent Developments

- Plant producing on a daily basis without much downtime.
- Plant being methodically optimized during operation through uncovering bottlenecks, areas of excessive wear etc.
- Plan to make a new permanent tailings storage facility ready for implementation.

Smelting of gold February 7, 2025

Red-hot smelted concentrate

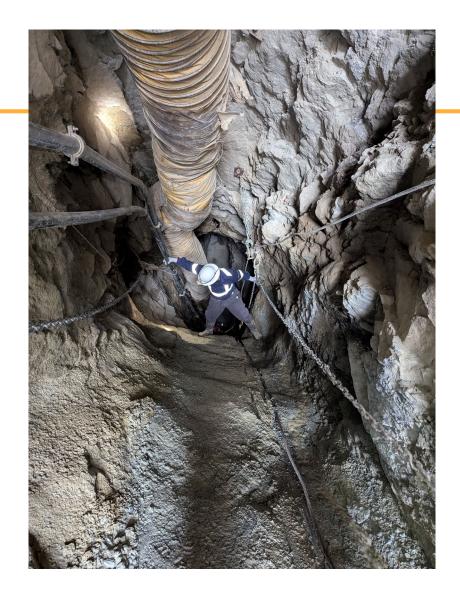

CEO with fresh doré gold bar

Operations Going Forward

- Main focus on getting new operations management in.
- New Site Manager with extensive mining experience.
- Shaft sinking team to come to site on April 1.
- Production from two winzes to start very soon when crosscut 2 comes into ore.
- When vertical shaft is operational at first level, ore haulage can be dramatically increased.
- Plant to be commissioned with CIL tanks when temporary tailings dam is full (this material will be reprocessed).

Financial update

Financial performance overview

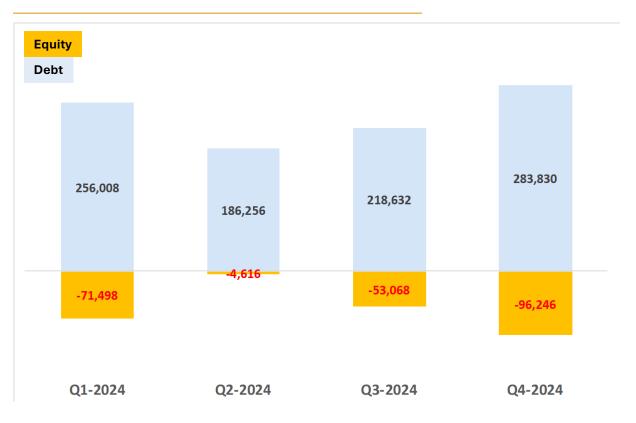

All figures in '000 SEK

Operational Expenses Development

- The company started production with income during the quarter covering large part of operational expenses in Ethiopia
- Operational related cost from Ethiopia is now booked as operational expense in the income statement

Equity & Debt Development

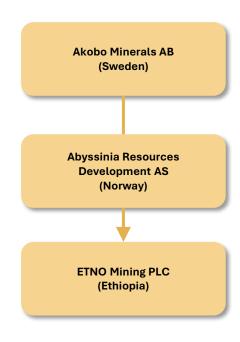

Corporate structure and top shareholders

Corporate structure and listing

- Stock listed on Euronext Growth in Oslo and Frankfurt Stock exchange (ticker AKOBO)
- Trading on the US based OTC Market platform
- The company is backed by a strong group of active Norwegian shareholders in addition to approx 3,000 retail shareholders
- The company holds 8,400 ounces gold loan from US based investors Monetary Metals

Transparent corporate structure

Comments to figures

- SEK 10.6 million gold sold to NBE, excluding 2,3 kg smelted in January
- SEK 2.2 million in other expenses mainly relate to consulting services such as accounting, auditing and legal both in Norway and Sweden
- SEK 4 million in other expenses mainly relate to mining activities in Ethiopia
- Personnel costs are primarily salaries for fixed employees in all countries
- Other interest income/expense relates to FX adjustments, interest on convertible and Monetary Metals loans, and adjustment of gold loan value due to fluctuation in the gold price

Comments to figures

- Fixed assets are capitalised exploration costs and local mining equipment in Ethiopia
- Long term debt is the 8,400 ounces gold loan from Monetary Metals and the NOK 25.5m convertible loan

Cash flow - Group

PRELIMINARY FIGURES

Amount in SEK	Q4-2024	YTD Q4-2024
Before changes in working capital	-3,897,359	-48,104,432
Changes in accounts receivables and other receivables	-359,166	-59,524,950
Changes in accounts payable and other liabilities	608,203	16,404,377
Cashflow from operating activities	-3,648,322	-91,225,005
Investment in intangible non-current assets	9,944	9,944
Investment in tangible non-current assets	278,930	-4,053,014
Cashflow from investing activities	288,875	-4,043,069
Long term debt	24,773,250	-13,235,377
Proceeds from share issue		129,302,322
Cashflow from financing activities	24,773,250	116,066,944
Cashflow net	21,413,803	20,798,870
Translation difference in cash and cash equivalents	367,708	474,477
Cash flow for the period	21,781,511	21,273,347

Comments to figures

- Cash flow from operating activities relates to all entities
- Cash flow from investing activities relates only to operational activities capitalised in Ethiopia
- Translation differences relates to changes in foreign exchange values on bank deposits
